Enzmann puts the INTERNATIONAL in IOSTIA
Richie Enzmann, Editor-in-chief @ROV Planet, to also serve as
Regional Vice President - Europe and UK;
International Ocean Science and Technology Industry Association

(Washington, DC): As the 49th annual Oceanology International, the world's leading ocean technology marine science exhibition and conference, begins, IOSTIA is announcing that Mr. Richie Enzmann, Editor-in-chief @ROV Planet, will serve as Regional Vice President - Europe and UK for the International Ocean Science and Technology Industry Association (IOSTIA).

Mr. Enzmann is the publisher of ROV Planet, a leading trade magazine focused on underwater robotic technology. He resides in Aberdeen, Scotland and has a well-established presence in Europe on matters associated with ocean technology. He will be working on developing IOSTIA membership, interacting with IOSTIA members in the UK and EU, and helping to develop regional strategies and priorities for IOSTIA.

Richie is an engineer by training. His experience includes being a Subsea Controls Engineer (IWOCS) with Cameron, a Subsea Controls Engineer (Subsea Instrumentation) w. Aker Solutions, and an Instrumentation & Control Engineer with KBR. He has two Master's Degrees and a Bachelor's Degree; Robert Gordon University, Master's in Project Management, University of Aberdeen, Master's in PGCert, Subsea Engineering, Distance Learning, and Robert Gordon University, Bachelor's in BEng(Hons), Electrical & Energy Engineering.

His full CV can be found on LinkedIn at <https://www.linkedin.com/in/richie-enzmann-4899559a/>

“With nearly 2/3rds of blue-tech companies located outside of North America, having Richie on the ground in Europe and the UK is a huge deal for us. When we launched IOSTIA, we wanted it to be international in scope and substance; engaging the foreign Embassies located in Washington to assist international companies entering and working in the U.S. market, and having a growing presence in other countries. Having a colleague such as Richie based in the UK is that first big step”, remarked Richard Lawson, CEO, IOSTIA.

IOSTIA will make another major announcement on March 14 – at Oceanology International.

The International Ocean Science and Technology Industry Association (IOSTIA) is a Washington, DC-based 501(c)(6) industry association representing businesses that provide technology and services for sectors that sustainably and commercially utilize the oceans. IOSTIA provides benefits, programs services and a public policy voice that create new opportunities and encourage a favorable business environment for science and technology companies.
